C/007/0041, Task ID #2063, Outgoing File

Dear Mr. Gray:

Plate 5-5 is the Surface Facilities Map contained in the approved mining and reclamation plan. Revisions to this map have been made to reflect additional mine discharge pipes in the mine yard that were not indicated on the Surface Facilities Map.

The certification requirements are met. Plate 5-5 is certified. This certification is by a registered professional engineer in the State of Utah. There was no change to the TA.

The above-referenced amendment is conditionally approved upon receipt of five clean copies prepared for incorporation. Please submit these copies by January 21, 2005. Once we receive these copies, final approval will be granted, at which time you may proceed with your plans.

A stamped incorporated copy of the approved plans will also be returned to you at that time, for insertion into your copy of the Mining and Reclamation Plan.

If you have any questions, please call me at (801) 538-5268 or Karl R. Houskeeper at (435) 613-1146, Ext 201.

Sincerely,

A handwritten signature in black ink, appearing to read "Pamela Grubaugh-Littig".
